

General Secretary
Indian Academy of Forensic Medicine

Registration No.349, Panaji, Goa
Governing Council (2022-2025)

Prof.(Dr.Manish Kumath)
Professor (Forensic Medicine)
VMMC & Safdarjung Hospital, New Delhi

Dear members of IAFM

I express my sincere gratitude to all the forensic /medico-legal experts spread around the country for working selflessly for the betterment of medico legal services. It gives me immense pleasure & proud moment for me to be elected as a General Secretary of IAFM which is the oldest and largest national organization of forensic medicine celebrating its golden jubilee anniversary. The overwhelm response and whole hearted support from all of you has made it a memorable event.

Nothing can be created overnight, it always takes years together to build a strong organization. I take this opportunity to thank all past governing council members for their best efforts in establishing a strong national organization.

IAFM has been striving hard in achieving various milestones related to medico-legal work as well as academic demands of nation and since its establishment has been working

relentlessly for the professional improvement of our subject specialty. It is only possible through meticulous work, coordination between various stakeholders and continuous support from all IAFM members.

I congratulate the newly elected governing council members (2022-2025) and on behalf of them assures that the entire newly elected team will work together with great zeal, enthusiasm & passion to establish new milestones for the subject by working tirelessly to the best of their abilities.

With more than 1500 experts under the umbrella of IAFM, I as a General Secretary feels more responsible and more dedicated for my work to achieve the better environment for the subject which we always desired off. I believe that all hurdles can be overcome by team work and better coordination between team members which will make us achieve our targets.

Finally, I want to thank all my respected seniors, colleagues and young juniors for showing trust in me and granting me an opportunity to work for the uplifting of academics as well as medico-legal services of the nation. I would strive for the uniform standardization of medico legal work across country under the aegis of IAFM. I will make the system more accountable, transparent and facilitatory for our forensic colleagues/forensic fraternity.

Long Live IAFM!

Prof. (Dr.) Manish Kumath
General Secretary, IAFM
